**Subject:** Re: [EXTERNAL] November 8, 2017 Meeting

Hi, Chris. Larry Bradfish can join by conference call but requests that State attorneys also attend since they will be signing LUCs. Pete, Jim, and Alex: can you please have Isabella and David join this discussion via conference call also?

Thanks,  
Lynn

Hi Lynn – I just had a call with our real estate attorneys. Per your 9/26/17 e-mail (attached) and the request during the 9/20/17 CAG meeting, I would like the attorneys to participate in our meeting on the 8<sup>th</sup> for 30 minutes to discuss VM disclosures. I have them scheduled to participate from 130-200. Chris

Hi Lynn – See below and attached. Based upon your team's availability, the agenda for Wednesday will be as follows:

10:30-12:00      Area 40

- Review Area 40 LUC table
- Review Area 40 Remedial Alternatives
- Additional discussion on HHERA and FS format and incorporation of new results

12:00-12:30 Lunch

12:30-2:00 Area 40 Continued

- Status of EPA/DTSC discussions on programmatic approach to Area 40
- CEQA discussion

2:00-4:00 VI/AA discussion

- <!--[if !supportLists]--><!--[endif]-->Review Area 40 Ambient Air Results and plan November Event
- <!--[if !supportLists]--><!--[endif]-->Review Summer Indoor Air Sample Results
- <!--[if !supportLists]--><!--[endif]-->Discuss Soil Gas Sampling in Gold River

See you on Wednesday! Chris

Hi, Chris.

I left you a voicemail also. Could you please send us at least preliminary data (with caveats if needed) on the bulleted items below ASAP so we can review it prior to meeting on 8 Nov? We'll have all the decision makers in the room, but we won't be able to have a productive discussion if we don't have time to review the data beforehand.

- Updated winter VI site wide IA sampling data and responses to EPA's tiering analysis from Spring 2017 (Sampling data attached)
- We still need to receive the additional data we requested in EPA's spring tiering analysis, such as air exchange data, HVAC info, area use info, etc. Our understanding was that we'd be getting a full report from AR with the additional information included, long term plans for mitigation or site use restrictions, and plans for follow on sampling where needed. (Per our agreement, a full report will be prepared with all the requested information following the summer sampling event. This report will include the information requested, if available.).

- Full set of Area 40 AA sampling data for the first quarter (summer) of 7 and 14 day samplers (Data attached)
- Preliminary groundwater and soil gas sampling results from the Area 40 Oct sampling (see prior e-mail for November 8 meeting)
- Were perched groundwater samples taken during the wet season community soil gas sampling? No. Could you please send those results as well.

Also, could we please start the meeting Weds at 10:30 am? The toxicologists are driving up that morning. Matt Plate can be there in the afternoon; please plan to discuss all VI/AA issues in the afternoon when Matt will be joining us.

Thank you!

**Subject:** RE: [EXTERNAL] November 8, 2017 Meeting

Sorry for the delay, Chris—Dan is back and is planning to attend all day on the 8<sup>th</sup> with me. Matt Plate prefers we cover the VI/AA/community soil gas portions in the afternoon if possible since he's flying in late the night before. For the agenda, could you please plan the VI/AA/community soil gas portions in the afternoon?

Matt is training his new QA counterpart, Dr. Lillian Abreu, also on VI issues. Lillian would like to observe our meetings on the 8<sup>th</sup> so that she can help with VI sites like Aerojet when Matt isn't available. She was going to carpool in with Dan for the day. If you don't mind accommodating this request, it may ultimately help us have more flexibility with our limited staffing levels.

We still need to receive data though for the meeting on 8 Nov, with enough time to review it for a few days beforehand. Could you please send me the following ASAP (with caveats on validation if needed):

- Updated winter VI site wide IA sampling data and responses to EPA's tiering analysis from Spring 2017
- We still need to receive the additional data we requested in EPA's spring tiering analysis, such as air exchange data, HVAC info, area use info, etc. Our understanding was that we'd be getting a full report from AR with the additional information included, long term plans for mitigation or site use restrictions, and plans for follow on sampling where needed.
- Full set of Area 40 AA sampling data for the first quarter (summer) of 7 and 14 day samplers
- Preliminary groundwater and soil gas sampling results from the Area 40 Oct sampling
- Were perched groundwater samples taken during the wet season community soil gas sampling? Could you please send those results as well.

Thanks, Chris!

Hi Peter – I forwarded you the invite. You were included in the original invite. No agenda yet. Still waiting to hear from Lynn regarding the timing for the VI discussion. The meeting will include both VI and Area 40 and we can organize to EPA availability. We have not sent an update of the table that includes the Summer results. We will send prior to meeting. Chris

Chris,

During a teleconference this morning with Lynn, she mentioned an upcoming meeting on November 8 at your office to discuss VI and Area 40. Have you sent an agenda for the meeting yet and, if so, was I included? I apologize in advance if I missed it.

Pete

P.S. Has there been an update to the VI data table that includes the Summer VI samples???
